

ORGANOCIDE® 3-in-1 GARDEN SPRAY

Versatile and Multi-Purpose Activity

- Insecticide
- Miticide
- Fungicide
- Scalicide
- Adjuvant

Insecticide: Organocide® 3 in 1 Garden Spray is very effective on small soft bodied insects such as citrus rust mites, psyllids, spider mites, aphids, whitefly, mealy bugs, chinch bugs, and fleas. It kills all stages of eggs, larvae, nymphs and adults, including all armored and soft scales.

Scalicide: Organocide® 3-in-1 Garden Spray controls all armored and soft scales.

Miticide: Organocide® 3-in-1 Garden Spray is an effective miticide for rust and spider mites.

Fungicide: Organocide® 3-in-1 Garden Spray prevents Citrus Greasy Spot, Septoria Spot, Powdery Mildew, Downey Mildew, Bacterial Tomato Spot and Black Spot on roses.

Adjuvant: When tank-mixed Organocide® 3-in-1 Garden Spray greatly increases the effectiveness of pyrethroid insecticides and copper fungicides.

University Test Results

- University of Florida
- Cornell University
- University of California

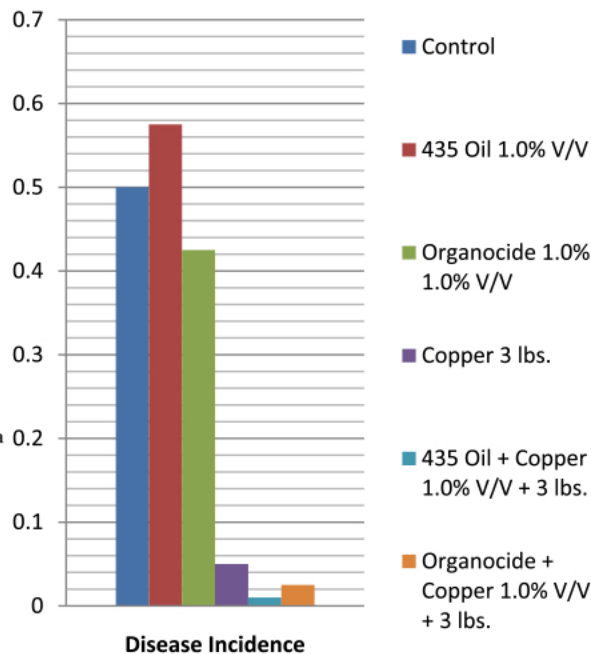

GREASY SPOT CONTROL CANKER SUPPRESSION

- **Tank-mix with Copper**
Improved results
Longer lasting
Rain Resistant
- **Eliminate Harsh Oil Sprays**
Improve tree health
Pack higher quality fruit

Organocide® 3-in-1 Garden Spray alone gave better Greasy Spot control than oil alone.

When tank-mixed with a copper fungicide, control of Citrus Greasy Spot is significantly improved.

In other research Cornell University found increased efficacy and no phytotoxicity of copper fungicide when tank mixed with Organocide® 3-in-1 Garden Spray for control of bacterial spot on tomato. University of California found increased efficacy when Organocide® 3-in-1 Garden Spray was tank mixed with a pyrethroid insecticide for the control of potato aphid.

Organocide® 3-in-1 Garden Spray has a 3-way killing action on psyllids:

- Organocide® 3-in-1 Garden Spray is a heavy oil and kills by suffocation.
- The fatty acids in the oil kills chemically.
- Psyllids avoid leaves that have been recently treated with Organocide® 3-in-1 Garden Spray.

Although Organocide® 3-in-1 Garden Spray is a much heavier oil than petroleum oil, it is free of petroleum solvents, giving it a *much higher margin of safety to the tree and fruit.*

CITRUS GREENING

- **Psyllid Control**
Kills by suffocation
Kills chemically
Kills by repelling
- **Synergy when tank-mixed with other insecticides**
Spreader-Sticker
Maintains low volatility of pyrethroid insecticides

Increase performance of approved pesticides for psyllid control with a tank-mix of Organocide® 3-in-1 Garden Spray.
